

User Persona – FinTrack

Name

Arjun Nair

Age

22

Occupation

College Student

Location

Kochi, Kerala

Background

Arjun receives a monthly allowance and occasionally earns money through freelance projects. He wants to keep track of his spending but often forgets to record expenses and struggles to understand where his money goes each month.

Goals

- Track daily expenses easily.
- Save money for future purchases.
- Stay within a monthly budget.
- Review spending habits using reports and charts.

Frustrations

- Manual expense tracking takes too much time.
- Existing finance apps feel complicated.
- Misses recording small cash expenses.
- Finds it difficult to identify unnecessary spending.

Needs

- Quick expense entry in a few taps.
- Automatic categorization options.

- Budget reminders and notifications.
- A dashboard with spending summaries and visual insights.

Technology Usage

- Uses an Android smartphone daily.
- Comfortable using mobile apps for payments and banking.
- Prefers simple, modern interfaces with minimal learning curve.

Quote

"I want an app that helps me understand where my money goes without making budgeting feel complicated."
